

RÊVE DE PLUIE

for Piano

Mark A. Hill

Rêve de Pluie

Dream of Rain

For Piano

Composed: 2025

Performance Time: approximately 5 minutes

Difficulty: Early Advanced

Although the underlying texture remains consistent throughout, the work demands rhythmic steadiness, tonal control, and the ability to maintain an even, flowing ostinato while projecting evolving melodic lines above it. The principal challenges are musical rather than virtuosic, requiring sustained concentration, expressive pacing, and careful balance between the rain-like accompaniment and the melodic narrative.

Program Note

Rêve de Pluie (Dream of Rain) is built around a continuous triplet ostinato representing falling rain. Against this unbroken backdrop, melodies gradually emerge, intensify, and recede like passing thoughts or images within a dream.
